

Phone access

Unlike the former website, you **will not** use the new website address to access the member area or patrol log on the phone (in the field). This is not a separate site, but technically intertwined with the main website.

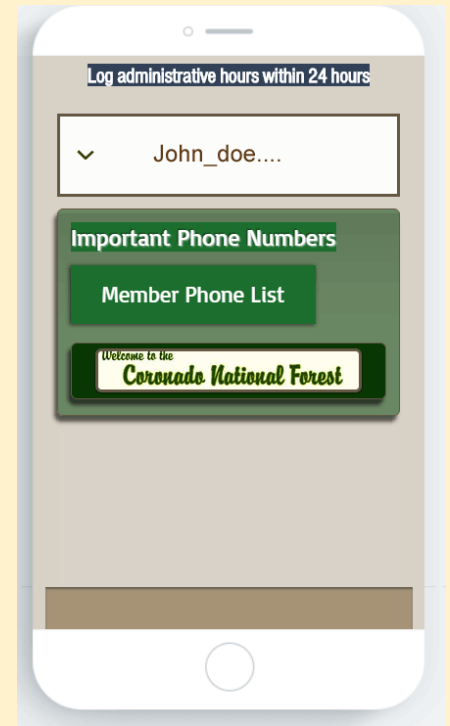

This is your phone access address: <https://www.scvolunteerpatrol.com/phoneaccess>

Note: Register your patrol plan is as seen on the full site.

Scroll down:

Your login. It is suggested you log in before you go out and select "Remember me", (Stay logged in) select Airplane mode "on", and click the screen off as normal. Remember, to use the log when in the field-take Airplane mode "off". Open your phone window and the scvp screen should be there.

The procedure for accessing the log on your phone has **NOT CHANGED**. If you have the Google Sheets App on your phone, it will work as always.

Important numbers are available along with the **Roster** to reach a patroller. **Coronado National Forest** is also available. This should be enough for the phone. If we discover other valuable links, we will install them, but obviously space is limited and viewing documents is better viewed on a larger screen.

We highly suggest that you save this web address to your phone in the manner described by your phone system/manufacturer.
